SUMMARY

Aspiring Software Developer with a strong foundation as a Software Engineer and Full Stack Developer, skilled in designing anddeploying web applications. Proficient in Python, JavaScript, HTML, CSS, and SQL with experience in the complete softwaredevelopment lifecycle. Seeking to leverage technical skills and problem-solving abilities to contribute to innovative software solutions.

SKILLS

- Programming Language: Python, Javascript, HTML, CSS
- Framework: Django
- Database: MySQL, SQL
- Cloud and Tools: Ms office suite, Figma, WordPress

PROJECT

Face Recognition Attendance System   *Jan 2024 – Mar 2024*

- Developed a real-time, contactless attendance system using OpenCV and deep learning.
- Integrated with SQL for secure storage and management of user and attendance data.

Super app Integrated Multiple apps   *Jun 2023 - Aug 2023*

- Created a unified platform integrating multiple web apps with single sign-on (SSO).
- Employed modular design for efficient performance and maintenance.

CERTIFICATIONS

- Full Stack with Python Course: GUVI
- Introduction to Cloud: IBM
- Machine Learning with Application to Object Recognition: NM

EDUCATION

M.A.M School of Engineering   **Oct 2020 - Jul 2024**
B.E, Computer Science And Engineering
Achievements: 82%

EXPERIENCE

GAO Group (GAOTek, GAORFID, GAO Group Inc.) Location: Remote | **Dates: Dec 2024 – Present**
AI Application Development | Technical Support

Key Responsibilities & Contributions:

- **AI Application Development:** Designed and developed AI-driven tools for content automation, website audits, semantic analysis, and visibility optimization using LLMs.
- **Technical & Business Support:** Resolved customer hardware/software issues, provided remote troubleshooting, and assisted sales with quotations, client inquiries, and B2B lead follow-up.
- **Web & Content Management:** Updated WordPress websites, optimized SEO, formatted content, and created technical product/service pages to improve client engagement.
